

Model AF-DF
High Velocity Dock Fan

Designed for recirculating the air in semi-truck trailers, and around loading docks. With a special wall mounting, the fan delivers a wave of cooler air to the front of the trailer, forcing the warmer air out to the rear of the trailer. This provides more comfort and higher productivity for workers loading and unloading inside the trailer.

Features

- Direct driven.
- High performance zinc-alum propeller.
- Attractive deep spun 14 gauge steel housing.
- Safety guards on both the inlet and exhaust side of fan. 1/2" mesh galvanized steel screen.
- Motor mounting bracket designed to fit most standard off the shelf motors.
- Power cord furnished on single phase units only.
- Fan housing coated with a thermally fused powered polyurethane black finish.
- 2 year warranty.
- Optional dock light to provide additional visibility in dark trailers.
